

W AND ORDER LEAGUE BECOMES POWERFUL BODY

wly Organized Association Will Deal With Many Civic Matters, Including Readjustment of Saloon Situation

(Continued From Page 1)

It prepared to say that Chief Petersen, Commissioner Turner and Mayor Mott have been remiss, but the failure has been some in the administration, and we must see that conditions are red.

have nothing to apologize for," declared Petersen in response. "I am a commissioner. I would not move one finger under an apt of this or any organization to bring pressure to bear upon me. I did not believe you were in the right."

"OAKLAND IS CLEANEST CITY."

Oakland is the cleanest city of its size in the United States, challenge Barnard to prove I am wrong in this. We can make it better, but not by having a bunch of detectives going to watch the officials, or by placing a watchdog over them."

Rev. William Keeney Townner of the First Baptist Church and the Rev. G. W. White of the First Methodist Church agreed Chief Petersen, and advocated co-operation with the city administration. The delegates present pledged \$73 a month toward employment of a secretary.

the discussion of the constitution and by-laws there was a controversy as to whether the league should advocate the use in the liquor license with the reduction of the saloons. It was pointed out that advocacy of a raise in the license might result into countenancing the saloon traffic. It was also red that if the license were increased sufficiently to raise the revenue of the city it would be urged later that any further reduction in the saloons would mean a loss of revenue.

ADVOCATE REDUCTION OF SALOONS.

was finally agreed to indirectly advocate the raise in license including in the constitution a clause favoring the reduction a number of saloons without increasing or changing the revenue to be derived therefrom.

increased cost of saloon licenses voted down, following an argument by Christopher Ruess, James Carlos White and Miss Ida Ruess favored the increase, and it opposed it. Hughes declared that were fighting for principle, not for money.

URGES RAISE

the saloons should be reduced and taxes not raised," said Ruess, "we are raising taxes. The people will protest this; that is the reason we insist on the saloon licenses being reduced. We must be practical."

the city council plans to raise the saloon license and raise the license. Then with an increased fee of \$100,000, they will say to us, 'Are you going to give up this license?'

WHITE OPPOSES

G. White spoke against the adoption of a raise in license. He said: "The suggestion of the secretary that we should have a secretary to look after the liquor traffic by advocating the revenue from \$500 to \$1,000 is a good one. I believe in the constitution. Like many other constitutions, it contains many things that do not belong in a constitution. It is an executive secretary. He said: 'question was brought up as to whether we should not have a people's party, a man of integrity, intelligence, energy, who should be on the job all the time in the interests of the people.'"

NEEDS SECRETARY

"I believe we need this executive secretary," declared Rev. G. W. White. "But I do not believe this secretary should be expected to act as a sort of private detective. I want to say that the city officials welcome the advice of the citizens. Many times I have been invited to confer with the city officials, and they have always heeded our advice."

"Now it seems to me that all we need in this executive secretary is that he should be a man who shall be authorized to speak directly for this organization. They will be glad to receive this advice, and welcome his counsel. They are good men and are anxious to do what is possible in the way of reform."

"I do not think," declared Lewis Gear, "that this organization was formed as a watchdog. We are friendly to the city administration. We seek, as Chief Petersen says, to voice public sentiment. We believe in the city council as the best plan."

"I believe Chief Petersen is right," declared Beatrice McCaill. "I realize this: we represent to the city council only a part of the community. That is why we must seek to co-operate with the city officials. If we could show the chief of police that 51 per cent of the people want the five licenses referred to, he will, I think, do it. I have found Chief Petersen a kindly and Christian gentleman."

"I disagree with him on one thing, however. In the Helen Sargent case, the girl should not have been sold drinks. I know you cannot tell women's ages. Still, if the case men cannot tell ages, why does he set a trap for himself in the shape of a private box?"

"I asked for those licenses because it was right, as I thought. Now the best thing we can do is to back up the chief."

MISS WOOD SPOKE AS FOLLOWS: "As the first president of the Child Welfare League, I have watched the progress of this city. Now there are several things that the league cannot and will not stand for, and those are the things that mitigate against the welfare of the boys and girls and the young men and women."

"Now you men and women are responsible for the officials at the head of this city. You put them there by your votes. You must not expect to stand over them with a club all the time, but you must let them know you are behind them in anything that is for the best interests of the city."

MAKES DISTURBANCE
J. B. Campbell of the Eugene Stachler Political, Social and Improvement Club attempted to speak. He was called to order by Chairman Gear.

"You're a bunch of ignoramus!" he shouted, and left the place.

Subscriptions were taken from those present to insure the payment of a salary for the proposed secretary.

C. Leet pledged \$10 monthly from the Men's League of the Congregational Church for a period of six months. Other subscriptions were as follows: Arthur Arlett, \$10; probation officer, \$5; W. C. Barnard, \$5; Men's League, First Baptist Church, \$5. The different subscriptions pledged today brought the sum up to \$73 per month.

The next meeting will be held next Tuesday evening.

CHIEF DECLARES FOR 'FAIR PLAY'

Wants People to Assist Officials and Not "Wield a Club."

(Continued From Page 1)

ducted, the saloon issue has been a dead issue for a long time. During the past few years my attitude toward the saloons, that they should be taken out of the residence districts, has remained unaltered, and the matter has been discussed by the commissioners.

"But day by day the council has been meeting trying to solve this and other questions, and work has been done for the betterment of Oakland."

"I want to warn you that at their largest, the organizations represented nearly all the element that go to make up a great and complex city. There are other people, probably as numerous as you, who do not agree with you on this subject. The public officials are elected to represent all the people, the whole community, and not one particular part of it."

WILL LOSE THOUSANDS.
"Do you realize that to close up the saloons in the residence sections means that men in business in this city, men who have invested their capital honestly, are going to lose thousands of dollars. There are men who have been in the saloon business for the past 25 years in one location, and against whom there has never been any complaint. Only this morning in the city council a petition was presented asking that a certain saloon which has been in business for the past 20 years in a residence district should not be eliminated."

"That petition was signed by over 100 residents, neighbors of this man, and they protested against the possible action of the council in putting him out of business. These people have just as much right to their opinion as you have to yours, and they are not a small minority in the community as you may lead yourselves to think."

"I want to tell you that this talk about holding a club over the city council and the officials is not likely to help matters much. If I were a commissioner I would not move a finger one inch for all the pressure of this organization, enforced by the methods of the club and the Burns detective agency."

ADVISE WITH OFFICIALS.
"I believe with Dr. White that if you advise with the officials, counsel them as friends, as men who are earnestly trying to do their best for the city, while representing all the city, you will get better results."

"You speak of having an executive secretary. I'll give \$100 toward the expense of employing a man in such a capacity, if you get the right man, a man of intelligence and honesty who is authorized to speak directly for this organization, and who will tell us what you want and explain the justice of the request."

"But we are not afraid of anything you people may do. We are trying to do our best to do what is right and fair, and we are not going to be clubbed one way or the other."

"One of the big issues that has been made in this present agitation is the question of the violation of the box ordinance in cafes. It is one of our biggest complaints. But when this matter was first noised abroad, there was not a cafe in the City of Oakland in which there was a box the entrance of which was obscured by a curtain, a door or any partition; not a box of which the view of the interior was cut off."

"It is true the letter of the ordinance was not carried out. It could not be. The ordinance provided that the main dining room there should be an uninterrupted view of all parts of the interior of the box. You could not lay a tablecloth without overlooking the letter of that law."

BOXES COULD BE BETTER.
"But the boxes could be made better, and a few days ago I personally went through the cafes of this city and insisted upon changes that will make them better."

"Many people believe in the section of the private box, however. I myself, with my family, enjoy the privacy of a box, and I feel that I have saloon question in Oakland; and it is further."

Resolved, That copies of these resolutions be forwarded to the city council of the city of Oakland and to the OAKLAND TRIBUNE; and it is further."

Resolved, That the Santa Fe Improvement Association favors the rigorous and impartial enforcement of the law as to the sale of liquor to minors, and that, if the allegations of the probation office as to the sale of liquor to a minor girl in several cafes in Oakland be proved before the Oakland city council, the licenses of such cafes should be promptly revoked, to the end that there be the protection of boys and girls in Oakland may be taken seriously and prevention rather than cure be thus secured for our young people; and be it further."

Resolved, That the Santa Fe Improvement Association demands that the law prohibiting the sale of tobacco to children under eighteen years of age be strictly enforced by the police department."

"We didn't consider them the lawmaking body of this city," said Hart.

"Yes, come along with me this afternoon," interposed Commissioner Turner. "I have to speak before the women. Come along and explain your side of it. You people in this hall have only considered it from one side."

"Are you in earnest about that?" demanded Hart.

"Certainly I am," said Turner.

"Then I'll come, for I'm in earnest about it, and so are the men I represent. The committee asked that when the ordinance is formally taken up by the city council they shall be notified. This was done."

Parties Lived Here Less Than a Year, Now Its "My City Pittsburgh."

"We have just received word from our family in Pittsburgh that changes our plans completely. It is necessary for us to return immediately, however much we regret leaving sunny Cal."

"We are willing to turn in our autoplano and give someone else the benefit of what we have paid on it, as we have one of the same style at our home in Pittsburgh."

This is what a party tells us who is leaving their autoplano for us to sell for them. The price to them one year ago was \$650. They have paid \$350 on the account and the contract may be taken up for \$400. The player in every way is as good as new and is being offered at less than regular price. It takes a baby a year or more to get six teeth.

In a year or less six of your teeth may be seriously damaged by lack of proper care. Proper care does not mean that you have to spend an hour a day scrubbing your teeth. Just two or three minutes in the morning and two or three at night.

And the care that you give your teeth is an investment that comes back a hundred fold.

For a better chance to make your mark in the world.

A few cents invested in a dental treatment that gets you into the regular habit of tooth care is common sense invested for your entire future life.

Oakland Center Told That Reduction Is Better Than Obliteration.

(Continued From Page 1)

as any other business in spite of all the courts may say and the ideal for such a case is complete absence of any restraint or whatever up to the barest limit of repressing of violence and extreme immorality and abuses which any business is subject to in their opinion.

"Another thing the Council believes is that the body politic by the adoption of the Initiative and Referendum does not wish and cannot expect a small group of bewildered officials to take upon itself the enactment of radical or revolutionary legislation without a clear and certain mandate from the people and in such measure as

beyond the proper scope of action at this time by the City Council. "Of course to the one who believes that the consumption of liquor should be prohibited entirely as a moral duty, the consideration of the question from the standpoint of the people, even the matter of the third party, is not engaged in the traffic pales into insignificance in comparison to what he believes to be the great moral wrong permitted.

NOT GENERAL BELIEF. "Such however, is not the general belief of the electorate of Oakland and this question the Council believes should be treated in the light of the fact that the business has been legitimized ever since the foundation of the city and that the municipal and even state policy of so treating it has been accepted and confirmed over and over again in the past by the people.

"Change of attitude in this respect is not for a small group of five officials, but it is a matter upon which public opinion must be unmistakably clear before any such body is justified in changing its belief. The City Council believes that they should not administer office as crusaders, as leaders of a great change even though in the opinion of many high minded people that change is a great moral reform of surpassing importance. Neither are the city council men disposed to do so, but they are to serve merely as automata without regard to principles or morals but they do believe that no lasting reform and no positive gain can be achieved unless their action is in accordance with and not too far in advance of current public opinion. A law is no law that is not backed up and sustained.

The verdict of all thinking and observing people is unanimous.

POWER OF OPINION. "That the great, real power in American politics is the same thing of public opinion and not the statutes enacted by public servants. I will say, however, at this time that the Council, in my belief, does think the time is ripe for some substantial change in the liquor business of the city.

"The City Council has long been considering the question of the modification of the saloon business, but this the last month it has felt that the time was not ripe and that public opinion in general did not demand any radical change. As a matter of fact the City of Oakland, we claim, is in cleaner and better shape today than at any other time in its own history and compares favorably in respect to public morals with any California city over one-third its size. It was felt, as I have stated that to agitate this question upon which there were such divergent views would result in turmoil and dissension so that other important matters would be neglected and no permanent gain made in the problem itself.

TIME IS RIFE. "As a result, however, of recent agitation, the Council, I believe, now feels that the time has come for a reduction of the number of saloons and for an alteration in the extent we should go to what an open question. The Council is honestly endeavoring to meet the situation in a sane and judicious manner and to the extent that public opinion will sustain.

If would seem a fair matter to those who have no responsibility to have the Council act arbitrarily by "short cuts" but we are confronted with the fact that ever since the City of Oakland was founded, the liquor business has been legally licensed and legitimized. The community is in a way, responsible for many men engaging in the business and investing considerable sums of money therein. In many cases, the investments representing the accumulations of their business life.

"The fact that one does not believe in the business, or even that a considerable percentage of the electorate does not so believe does not justify public officials in virtually confiscating a considerable portion of such investment summarily and without a chance for adjustment.

Believing that this is so and also believing that there are too many saloons in the city some months ago I suggested and discussed with several, a proposition for a gradual reduction at regular intervals, a year's notice that they would have to go out of business and returning to them, at the end of the year, the license fee for such year as some compensation for their losses. Because of the practical and legal difficulties which would arise this idea did not meet with favor.

OTHER PLANS DISCUSSED. "Other plans have been proposed and discussed from time to time, one even having been drafted by the City Attorney. The Council is now actively at work upon such an ordinance.

"This ordinance is not entirely settled but it will probably provide, among other things that no saloons shall be established or be abolished, that the number will be now a legal game, and other games of chance for money, will be prohibited, that only direct exits from the public streets will be allowed, and for the orderly and proper conduct in other respects. Liquor licenses will be classified and the retail saloon license fee will be increased to double the present amount beginning January 1, next.

land. If it is that is something for the public itself to legislate on directly. You have the power to do so, the machinery is provided in the City Charter and the Council does not feel called upon to get in the matter.

AN OPEN QUESTION. "It is even open to question whether the changes proposed should not be referred to the voters rather than acted upon by the City Council, who are supposed to represent all the people.

"There are a few saloons that ought to be abolished by reason of their bad reputation, some others by reason of their location might be selected, and the increased license will cause others to go out of business; but the great number of saloons in Oakland are run in an orderly manner and without complaint from the neighborhood. How to pick and choose among them, realizing that it is a matter of tremendous importance to the men involved, meaning the destruction of their business, and the loss, in many cases, of considerable sums of money—is a most embarrassing and difficult task. While some are asking for sweeping reduction in the number of saloons, others are sending in petitions to have saloons in their neighborhood retained.

"Before I close I should like to state that in all such movements, the great danger to guard against is going to extremes. A lasting reform must be made by over drastic action, much better what public opinion of the day demands and will sustain. This has been proved over and over again in the history of other cities and other movements and the practical way to proceed with regard to the other fellow's point of view, with moderation and with consideration and justice toward all.

PROGRESS CAREFULLY. "Those of you who have read Theodore Roosevelt's essays, especially one entitled "Latitude and Longitude Among Reformers" and "The Best and The Good" will recognize as the principle that that great leader of practical reform insists upon this, "that the righteous thing is to obtain the greatest practical progress—not to insist upon 'all or nothing,' but to make progress by successive steps and not allow, in the words of Archbishop Benson whom he quotes 'the best to become the enemy of the good'."

Hunted 6 Weeks Bugs Game Limit Caught Big Trout

HARRY BORCHERT

SAN FRANCISCO, Aug. 18.—Harry Borchert, one of the best known sportsmen and clubmen in the city, has returned from a six weeks' hunting trip. He visited Minney's hotel, on the McKenzie river, where for the past two years he had bagged large quantities of game. This year was a successful one as usual. He killed two deer this season, and secured the limit of trout on every fishing trip. The country about the hotel, he declares, abounds in bears, wild cats, cougars and deer.

Borchert declares that the place is a hunter's paradise. Several others with him also secured large bags of game.

COMIC OPERA AS PROLONGED RUN

"Knight for a Day" Begins Its Twelfth Week at Idora Park.

"A Knight for a Day" was the cause of a portion of a very entertaining night last night, when he appeared at Idora Park to open the twelfth week of the comic opera season in the canopied amphitheater. The comedy is a laugh from curtain to curtain, and proved to be one of the biggest successes of the season, not excepting "Jack and the Beanstalk."

Mindel Kingstin appeared in the part originally played by the late Mabel Hite. Miss Hite laid the pavement of her road to fame in this show, which is filled with good music, comedy, bright and clean comedy, and opportunities for practically everyone in the cast.

It soon to be announced for the coming shows, the season having been so successful that it is intended to present more operas before the company leaves Oakland.

Ferris Hartman, "The Knight," who for a day poses as a nobleman, was one of the comedy features of the performance, and George Bundy, George Ebner, and Fay Poston kept the audience laughing. Miss Kingstin sang a number of comical songs as well as others, danced a little, and looked charming. Alice McComb, Grace DuVall, and all the Idora favorites, were in the cast. The piece will run all week, the new opera to be announced later.

LAKE NEAR ROME IS SCIENTIFIC MYSTERY

ROME, Aug. 18.—Italian scientists and expert hydrographers are again puzzled by the sudden disappearance of the waters of Lake Corno, some 100 miles from Rome, while the population of the district is in mortal fear of some imminent catastrophe. The lake has been playing hide and seek with the villagers from time immemorial.

Records show that every twenty years the waters recede, leaving a large hole in the middle of the lake bed. Where the waters go constitutes the mystery which has so far baffled scientists. Fish disappear and return with the water.

According to local legend, the water disappears when a certain accident happens in the neighborhood of the lake. Two boys were drowned there recently.

U. S. WILL NOT TAKE OVER SUB-CONTRACTS

WASHINGTON, Aug. 18.—The treasury department today announced that it would insist that contractors on public buildings hereafter must look after the financial wants of their sub-contractors as work on the structures progressed.

In the past the department has experienced trouble in pushing work on new buildings because contractors in their monthly requisitions for funds failed to make proper payments to sub-contractors. This practice, the department proposes to end and it will try out its new policy in the erection of the new \$400,000 federal building at New Haven, Conn.

DANIELS SCORES NAVAL FINDINGS

Secretary of Navy Dissatisfied With Report Concerning Paymaster Arms.

WASHINGTON, Aug. 18.—Seething criticism of the naval court which tried Paymaster Theodore J. Arms on charges of "culpable inefficiency" was endorsed by Secretary Daniels today upon the findings of the court sentencing the paymaster to a loss of three months in grade for his connection with the commissary frauds aboard the battleship Louisiana. The secretary said the sentence was wholly inadequate and that he approved it only to prevent the officer escaping punishment entirely.

Fraudulent transactions by an enlisted man in the commissary department cost the sailors of the Louisiana several thousand dollars. Paymaster Arms was the commissary officer in charge. Commenting upon this Secretary Daniels wrote upon the court's report:

"That frauds of such magnitude could be perpetrated by an enlisted man in the very presence of the officer in charge of his work, without even arousing the latter's suspicion, is difficult to comprehend, and is sufficient evidence that the commissary officer managed to keep himself absolutely uninformed of the work of his office."

Of the members of the court who recommended clemency, the secretary said: "They have placed themselves on record as in favor of condoning an offense which any one having the real interest of the service at heart must regard as calling for severe punishment."

SAN FRANCISCO COUPLE ELOPE; ARE MARRIED

SAN FRANCISCO, Aug. 18.—Miss Hattie Haskins, 1455 Leavenworth street, pretty young daughter of Phil Haskins, chief deputy in the internal revenue office and former State Senator from the old Twenty-fourth district, eloped yesterday with John Diestel, a well-known young builder and contractor of the Mission. They were married at noon yesterday in St. Charles' Church. Miss Haskins' father and mother thought last night their daughter was in Saxaulito, spending her vacation with friends, while she really was speeding southward on her honeymoon.

Diestel is president of Mission Lodge No. 10 of the Hermann Sons and a member of the Mission Promotion Association. He found that the parents of Miss Haskins would not consent to the marriage, so he decided to marry without that formality. Miss Haskins agreed to this method. Yesterday he telephoned her, asking her to meet him at the ferry. They hurried to the city hall, secured their license and then went to the church.

ORO ELECTRIC CO. MUST STAY OUT

Railroad Commission Refuses Permission for Concern to Enter Stockton.

SAN FRANCISCO, Aug. 18.—The application of the Oro Electric Corporation for a rehearing of the case in which they were denied access to Stockton with their electric light wires was denied yesterday by the Railroad Commission.

This company already has been granted the privilege of operating in the major part of the San Joaquin valley, but when it applied for permission to go into active competition in Stockton with the Western States Gas and Electric Company, the commission declined permission if the Western company complied with certain requirements within a given period.

All these requirements were complied with, and, for that reason, the rehearing of the case was denied.

That the Western States Gas and Electric Company should complete its work of reconstruction and unification within 90 days, and that within that time it should present a schedule of rates not to exceed that submitted by the Oro company.

Other conditions were that the Western company should file a stipulation with the commission and with the board of trustees of Stockton stating that its contract with the Sierra and San Francisco Power Company was made for the purpose of protecting it from competition, and that rates charged for electric current by the Sierra company and by the Pacific Gas and Electric company to the Western company are both excessive.

The commission held a hearing in Stockton to determine whether the Western company had complied with these requirements, and, on it being shown that it had, an order was made denying the rehearing for the Oro company.

SPENDS FORTUNE ON BLUE-BLOODED DOGS

CHICAGO, Aug. 18.—Francis G. Porter, the broker, whose Alfrede dogs are principally the cause of his appearance yesterday before a referee in bankruptcy, asserted he had spent \$50,000 on the blue-blooded animals. Their care was one of the heaviest declines on his finances, he said.

Mr. Porter stated that three years ago he invested \$100 in dogs and since that time has spent \$50,000 on them. At one time he had more than 130 of them in his kennel.

"There were 28 in your kennel when the receiver took them over, how much are they worth?"

"They should bring \$25,000, for there is a good market for them," said Porter.

Attorneys representing creditors estimate that Porter's liabilities will exceed \$200,000. The dogs are the principal assets.

"BLACK HAND" LETTER DEMANDS "DUTCH LUNCH"

OGDEN, Utah, Aug. 18.—Receipt of a letter signed with a "Black Hand" skull and crossbones threatening his life unless material for a "Dutch lunch banquet" and \$25 in cash was delivered by Saturday night, was reported to the police last night by M. Youstu, a Japanese farmer living near Ogden. Among the articles demanded are eight bottles of beer, two pounds of Limburger cheese, five loaves of bread, seven boxes of crackers and pickles. Members of the Japanese farming colony were terrorized by receipt of the letter, but the police look on the threat as only a practical joke.

IN HARMONY WITH NATURE. Will G. Richmond, Inglewood, Calif., says he will be glad to answer any inquiries regarding the benefits he has derived from Foley's Honey and Tar Compound.

"It has also greatly benefited me for bronchial trouble and cough, and acts so well in all cases of colds, that I can use it as a food and a medicine."—Drug Department, Kahn's.

IMPROVED SERVICE PROMISED FOR ALAMEDA

Southern Pacific and City Officials Discuss Railroad Matters at Length.

ALAMEDA, Aug. 19.—The round robin of Southern Pacific officials and members of the city council last night was productive of great results and a better understanding between both bodies as to matters of importance concerning the local service. There were present for the railroad company Superintendent J. C. McPherson, Assistant Superintendent W. H. Norton, Engineer B. W. Perrin and Foreman of Supplies Thomas J. Cress. Councilmen Frank Bartlett, chairman, E. B. Bullock and George W. Stewart of the public utilities committee, and Mayor Otto, also Councilmen E. J. Probst and Conrad Roth represented the city.

City council last night was productive of great results and a better understanding between both bodies as to matters of importance concerning the local service. There were present for the railroad company Superintendent J. C. McPherson, Assistant Superintendent W. H. Norton, Engineer B. W. Perrin and Foreman of Supplies Thomas J. Cress. Councilmen Frank Bartlett, chairman, E. B. Bullock and George W. Stewart of the public utilities committee, and Mayor Otto, also Councilmen E. J. Probst and Conrad Roth represented the city.

Assistant Superintendent Norton pointed out that the stopping at Fifth street and Webster streets on Lincoln avenue is now making the train run minutes late at the mode. If they are about minutes late at the mode, the boat will leave and the passengers will be stalled for half an hour. The boat is compelled to leave at this time, because it allows only two minutes to unload and reload the passengers across the bay.

McPherson, however, agreed to uphold the promise and the station will be established. The superintendent at this point announced that within a week the crowtown line will be extended to the city.

Superintendent McPherson could not answer for the request for transfer privileges for residents west of Market street to the city. He said that the city would mean considerable extra business for the company, as practically no district would be given service to Oakland without great inconvenience. McPherson passed the matter to Charles F. Bueh, the traffic department, with whom the committee will correspond.

Superintendent McPherson declared that stations would be built at Webster and Lincoln and that Lincoln if there are sufficient passengers to warrant the expense. He promised to have the matter checked up and will advise the council as to his findings.

URGES TWO CARS. Councilman Bartlett at least two cars be operated at all hours of the day on the ferry line. McPherson said this would mean hauling around an empty car at the point.

Councilman Roth urged the repair of the roadbed at the Webster street crossing. Engineer Perrin agreed to have such work done. Councilman Roth pointed out that the track is four inches higher than the roadway and cars and trucks receive a terrific bump in crossing.

The club has been successful in the past in securing new members and in the past year has been successful in securing new members and in the past year has been successful in securing new members.

EXPRESSES CONFIDENCE IN PRESIDENT HUERTA

Mexico City Capitalist, on Visit to Berkeley, Praises Republic's Head

BERKELEY, Aug. 19.—Confidence in General Huerta and his ability rightly to administer Mexican affairs and the belief that he should be recognized by this government were expressed this morning by J. J. Fitzgerald, prominent Mexico City capitalist and real estate operator and railroad official. Fitzgerald is here on a business trip and expects shortly to return to the southern capital.

"General Huerta is a soldier born," declared Fitzgerald this morning. "He is rapidly converting a body of raw troops into a well disciplined and equipped army that will insure the stability of his government. Such work takes time, but he is making as rapid progress as is possible under the circumstances."

"Under such circumstances there is every reason why this country should extend recognition to Huerta. His is the stable government and will be for an indefinite time to come."

"This country has fallen in gratitude to General Huerta for their aid in the revolution. Both Ambassador and Mrs. Wilson rendered the United States a great service by their tactful and wise conduct in Mexico and by making the Mexicans understand the real sentiments toward their republic of the better informed people of this country."

Fitzgerald is a Civil War veteran. He is author of a work on industrial conditions in Mexico that was printed in English by the Mexican government. He is also industrial agent for the Vera Cruz and Isthmian Railway and acquainted with conditions in the disturbed republic at the present time, having left Mexico City at the end of July.

"There is practically no danger to American residents of Mexico at this time," he declares, "except in those isolated places where there is constant fighting. Even there it is possible to keep out of the danger zone. Americans who have been in Mexico for some time are safe at their places of business, and are making more money than ever before."

"The nation was involved in the civil war, and an increase in the business of this country of 20 per cent over the corresponding month of last year."

CAUSE FOR FLIGHT. In the press reports often of Americans who have had to flee for their lives leaving all they had behind. In a preponderant majority of cases which I have been able to investigate I have found there were other and far different causes for their sudden flight.

One man told me, for instance, that General Kennedy of this country had been advised Americans there to leave the country.

Woodland Round trip excursion tickets are now on sale for any Saturday or Sunday at the rate of \$1.00. The tickets are valid for travel on the Santa Fe and Northern Pacific systems for all routes.

JOB, JOB, WHO HAS THIS ALAMEDA JOB?

Alameda Girl Gives Position to Friend Without Telling the Authorities.

ALAMEDA, Aug. 19.—Just what rights an employee of the city has to pass along his job to a successor when he is tired of the place, and what rights the successor has at the municipal money bag when a month of service has been rendered the city, without the city's knowledge, is a question that will in all probability be

to be held tonight, and when pretty Miss Lotrus, play instructor at McKinley park, has been vital in raising the salary of the city. She was given her position by Miss Dorothy Holbrook, when the latter accepted a position as instructor in the Happy Day kindergarten in the Italian quarter of San Francisco. Miss Lotrus prepared her salary warrant with great care and presented it to Auditor Fred J. Croll.

"Don't happen to have the pleasure of your acquaintance," said Croll in his most pleasant manner, and not finding your name among the lists of city employees, I regret to say that the warrant is not valid. By the way, where are you employed, Miss Lotrus?"

The young lady blushed and explained that for the past month she had been officiating in the capacity of play instructor at McKinley park.

Auditor Croll again consulted his lists. He again found no name, and he again said that the warrant was not valid. He said that he had advised the young lady to go to her friend, Miss Holbrook, and get her name on the list.

MOOSE BOOSTERS IN A CAMPAIGN FOR MEMBERS

ALAMEDA, Aug. 19.—A subordinate of the Alameda Moose lodge to be known as the Boosters' Membership Committee, has been formed, and the first meeting, at which organization was effected, was held yesterday. A large number of the regular members signed the roster as boosters and the enthusiasm that marked the assembly was gratifying to the officials of the lodge. Postmaster Tom C. Stoddard was named as chairman of the new committee.

Another man, going from Mexico to Guatemala and thence to Philadelphia, told the papers he had had to leave all his possessions behind when he fled. Investigation showed he was a tramp. He is alleged to have replied that the method would be the most satisfactory and most profitable that could possibly be adopted. He is said to have advised the young lady to go to her friend, Miss Holbrook, and get her name on the list.

'SWAT THE FLY' ALAMEDA SLOGAN

Health Ordinance Drafted That It Is Expected Will Be Opposed.

ALAMEDA, Aug. 19.—"Swat the Fly" is the slogan adopted by the Alameda city council, and a new and drastic ordinance has been introduced. It is expected that the ordinance will raise a storm of protest from the butcher, the baker and the candlestick maker, for under its provisions no food vendor will be exempt from a large outlay of money to comply with the law.

From the provisions is one requiring that all meat, fish, groceries and fruits be securely shielded from the ravages of the tiny but deadly germ carrier. Meats must be kept in glass cases, fruits, vegetables and groceries covered with fly tight screens, and the wagons of all hucksters similarly protected. The new ordinance is expected to be passed by the health committee of the city council. It was drafted by the local board of health.

REV. JOHN BAIRD NOT WORRIED AT REPORTS

Athletic Divine Who Evicted Attorney From Church Is on Trial.

ALAMEDA, Aug. 19.—Rev. John Baird, pastor of St. Luke's Episcopal church, of the city, is not worried at reports that he has been evicted from the church by the athletic divine who has been in the city for some time.

W. H. Moreland of the Sacramento Diocese, according to the statements of the athletic divine at his summer home in this city today.

"Nothing that is official has been published," the minister declared, "and the time is not ripe for me to make any statement. There will be a meeting of the standing committee in a few days, after which I will make public a statement of the entire matter, and my connection with the church."

Rev. Baird was in and out of his summer home yesterday from a trip to Salinas, where he went to officiate at the services of the late Sunday school.

The Woodland divine has on frequent occasions declared that he was right in insisting that the business affairs of the church be conducted according to business methods. He made no direct charge other than carelessness against C. W. Bush, a Woodland banker and treasurer of the church, but at a meeting of the church board at which Bush was present and represented by Attorney Armfield, the athletic divine forbade the attorney from the church, the legal light clutching him at the church seat, as he was hurried downward by the husky man of the cloth.

CLIMAX OF CHURCH POW. The incident marked a climax in the church war, and a general uprising of the congregation followed, sides being taken for and against the pastor.

Bishop Moreland appears inclined to favor the Bush side in the controversy. In an interview yesterday the Bishop said:

"I can not, as head of the diocese and an official who probably will pass upon the case, say anything regarding it at this time. I regret the unfortunate affair exceedingly, and the publicity attending it. However, as regards C. W. Bush, against whom the charges are directed, I desire to say that I consider him a layman of the highest integrity, of unusual business capacity and one of the most devoted and unselfish churchmen of a century."

Rev. Baird and his family are enjoying their vacation in Alameda and have made many little side trips. The minister recently addressed the congregation in the local Episcopal church during the absence of the Rev. Everett W. Cooper, and the church was filled to the doors.

Baird today is not in any way connected with or as a result of the present difficulty with his country parish. He says that he is subject to occasional spells of slight illness, and that he will be able to be up tomorrow.

BACK FROM VACATION. ALAMEDA, Aug. 19.—Janitor Joseph Byrne returned from Walnut Creek yesterday, where he went to accompany home Mrs. Byrne and the three daughters of the couple, Edna, and Alice. Gossip About Guests
Summer Boarders

WAS there ever a select summer boarding house where the same families were wont to congregate each year, that the women did not fall unconsciously into the fall routine of gossiping about the other guests who did not happen to be in their set? They marveled at the number of guests who did not happen to be in their set. They marveled at the number of guests who did not happen to be in their set. They marveled at the number of guests who did not happen to be in their set.

The same group of piazza women did not let the summer escape go by without the table behind them. They concluded that she was in quest of a beau. It did not matter whether he was rich or poor, tall or short, had a good or poor business, so long as he was a man. The young widow who sat opposite them did not escape notice, but who was living from hand to mouth, as it were, or he might, for that matter, be a gambler. They were too reluctant to talk of themselves and where they hailed from.

There was no end of putting their heads together as to the reason, when it was discovered that the young woman had conferred with the mistress of the boarding house, and that two separate rooms had been assigned them. It was surmised that they must have had a very bitter quarrel just as they started out on their honeymoon. This suspicion was strengthened when the young woman appeared in the dining room alone. Some one discovered that the old gentleman had left the boarding place abruptly and had gone, none knew whether for ever or the while. The lady was non-committal regarding the strange pair. The young woman did her best to make friends with the women on the piazza. But each and all received a cold shoulder to her. It was too lonely for the young woman at the select boarding house. She soon moved to the select hotel and there she found a more congenial atmosphere.

Then some one found out that the old gentleman was a well-known multi-millionaire and the young woman was his daughter. They had come unheralded and unannounced for a few weeks' pleasant seclusion and recreation. There was scarcely a gossip among the group of women piazza sitters who did not feel like blushing for some reason or other in making the young woman's stay among them so unpleasant. When will women at summer boarding places learn to treat all entertaining angels unawares.

ASKED HER NOT TO MAKE DATES.
"Dear Miss Libbey: I am 20, deeply in love with a well bred man. This man seems to be attracted to a girl friend of mine. He has asked me not to make dates with any of my boy friends. He made a date with me the other evening, saying he would call at my home for me. I waited patiently, but he did not appear. The next morning on my way to work I learned through a girl friend that he went out with another girl. Do you think I should turn him down or what means should I take to win his affections?"
"You would be very foolish to attempt to win the affections of a fellow who thinks so little of his word. I am afraid he is not interested in you at all. He never would act that way if he were. Don't bother with him any more."

BANK ACCOUNT OF \$450.
"Dear Miss Libbey: I am 19, have been keeping company with a young man of 22 for the past three years. We became engaged a year ago. My parents think a great deal of the young man, as he has a first-class reputation and they knew him since he went to school. Do you think we can be married on a bank account of \$450 and a salary of \$18 a week? I have been working out the last three years and understand cooking and know how to economize. Do you think we are too young to get married? He is a native being in California and he has no home here."
"I am sure you could keep house on \$18 a week if you understand cooking and know how to economize. I think you are not too young to marry. You will have to try to add to the little bank account each week."

A WIDOWER OF 36.
"Dear Miss Libbey: I am a widower, 36, and have a seven year old girl. I have been keeping company with a young girl of 19 for the last six months. I love her very much and I know she loves me. I am sure she is a good girl. I would like to have her marry me. Do you think a girl of her age will be a good companion to me or else do you think I am too old for her?"
"I do not approve of marriages with such a great difference in age. They so often prove disastrous. On the other hand, I know a great many marriages where the age difference is even greater than in your case and they have resulted most happily. It all depends upon the individuals and if one's tastes are congenial no general advice will apply in any two cases."

LOST INFLUENCE OVER HIM.
"Dear Miss Libbey: I am 20. Have been keeping company with a young man for the last three years, until the last month. For the past year he has been employed in a town fifteen miles from where I live and where I met him. For many reasons we cannot get married for a while, but I have lost the influence I used to have over him. Not that I think he thinks less of me, but he is in a bunch of boys that are bad in general. He has tried for some time to get me to the same town where he is and work. I could go, but should I? If I could be where he is I would have the same influence I used to have; but he is very stubborn and I do not want him to think that would be the reason I went. We have quarreled a great deal while he has been away—jealousy on both sides. I think lots of boys that are bad in general. He has tried for some time to get me to the same town where he is and work. I could go, but should I? If I could be where he is I would have the same influence I used to have; but he is very stubborn and I do not want him to think that would be the reason I went. Y. W. C. A. Building Fund Is Inadequate May Conduct Campaign to Raise Amount

HOW OAKLAND'S NEW YOUNG WOMEN'S CHRISTIAN ASSOCIATION BUILDING WILL LOOK WHEN COMPLETED.

A question of vital importance confronts the board of directors of the Young Women's Christian Association. It is that of money. The funds raised to construct the proposed new Y. W. C. A. building, the plans of which were made public today, falling short of the amount required to construct the structure with all of its equipment. This will make it necessary to launch a campaign to raise the balance of the proposed department and it now remains to be seen which section of the building will be cut out. It has been suggested that the swimming pool and roof garden be dispensed with, but this suggestion was met with disapproval. The committee declaring that the young ladies had set their hearts on these two places and were looking forward with much anticipation to their completion. "It would be very unfortunate if any section of this beautiful building should be cut out," said Miss Grace Fisher, president of the association. This morning "Each detail has been planned after careful study and each part is needed for the several departments. It would be a great pity, indeed, if the structure were delayed awaiting for additional finances."

MONEY QUESTION PERPLEXES.
Other members of the organization expressed themselves as in accord with Miss Fisher's statement. However, the question of raising more money is a very perplexing one. The association has taxed its resources and it is doubtful whether it will be possible to build the structure with all of the planned departments. Bids for the building were opened today, but the sum was within reach of the sum raised by the organization.

"We believed that the sum which was raised would amply build the structure and also leave a small amount in excess for furnishings," stated Miss Fisher, following the opening of the bids, "and the size of the bids was like the exploding of a bombshell. It is certainly distracting and I do not know what we will do." It has been suggested that another campaign be conducted to raise enough money to make up for the deficit. However, this cannot be decided upon until the next meeting of the board of directors.

Following are the members of the building committee which had charge of promoting the campaign for the raising of funds for the proposed building: Mrs. Walter Henry (chairman), Miss Grace Fisher, Mrs. J. E. McVicker, Mrs. Charles Rowe and Mrs. F. G. Harper.

MAY WITHDRAW BANKRUPTCY CASE

Hanford Option Understood to Have Been Granted Under Special Proviso.

Interests to Be Conserved and Re-financing Plans: Foreign Capital Promised.

SAN FRANCISCO, Aug. 19.—Prior to the granting to R. G. Hanford of an option on the United Properties' Company through the share of F. M. Smith, the directors were practically unanimous in demanding that Hanford withdraw the bankruptcy suit filed by him against the Oakland-based company. An official close to the matter declared this morning that it was practically agreed that Smith should not be forced into the bankruptcy court.

If Hanford succeeds in interesting English capital as he expects and will be able to purchase Smith's share in the United Properties' company, including the Key Route, the Oakland Traction company and the Realty Syndicate, it is believed that the entire financial situation in which Smith finds himself will be cleared up. The trustees to whom he has given control of his affairs are also sanguine of the outcome providing, of course, Hanford raises the money as he hopes. It is understood that the only reason why the bankruptcy proceedings cannot be immediately quashed is because a number of minor creditors have been unable to file their claims. They have joined themselves to the original plan and will file in the first instance as a condition of the plan.

EXPLANATIONS MADE.
F. M. Smith's assistants and trustees today stated that the option given to R. G. Hanford does not carry with it the complete ownership of the properties with the purchase price, thereon stated, has been paid.

Louis W. Bennett, director of the United Properties Company of California, made the following statement today:

PROTEST IS ENTERED.
The trustees of the United Properties Company have given R. G. Hanford an option covering Smith's holdings in the United Properties Company. Neither Smith nor the F. M. Smith advisory committee have any voice in the matter. The trustees have no objection to the option, but they have protested against it. They believe that they are being deceived by Hanford. They have no objection to the option, but they have protested against it. They believe that they are being deceived by Hanford. They have no objection to the option, but they have protested against it. They believe that they are being deceived by Hanford.

LOS ANGELES, Aug. 19.—Miss Edna Landers of Winnipeg, Can., who is spending the summer at Santa Monica with her mother, Mrs. M. A. Landers, is recovering today from the effects of accidental incarceration in a large cafe refrigerator.

As guest of an employee of the place, Miss Landers entered an inspector of the large ice box. While within, her companion was called to the telephone and leaving his chance the door closed. As the refrigerator door, the lock was jammed and it was necessary to batter the door from its hinges.

When rescued Miss Landers was unconscious from the cold and terrors of her experience. She suffered a severe nervous shock, according to her physicians.

GOVERNORS TO STUDY NEW FORM

Recommendations for Changes Will Be Presented at Conference.

Five Interesting and Important Subjects Will Be Discussed.

CHICAGO, Aug. 19.—Recommendations for a new form of state government will be presented at the governors' conference which will open August 26 at Colorado Springs. The program for this gathering, which promised to develop into extraordinary importance, was announced today by Secretary McRiley of Madison, Wis.

Five interesting subjects will be discussed. Of these none will receive more attention than "a state department of efficiency and economy," which has been assigned to Governor Clegg of Oklahoma and Governor Lister of Washington.

State departments have such a department and the governors presenting the subject will advocate many reforms along lines of efficiency and economy in the administration of the state affairs, such as the co-ordination of state work, the consolidation of commissions, the more effective apportionment of school funds, a state budget, legislative procedure, merit system, a central state purchasing department, prison labor and a wage scale for state employees.

GERMANS WOULD HAVE EXHIBIT AT FAIR

BERLIN, Aug. 19.—Demands are now being heard in Germany for a re-look at the German government's decision not to participate in the San Francisco Exposition. Dr. Wittenberg, chairman of the Association of German Textile Wholesalers, is a prominent leader of the German manufacturers to exhibit their goods even if the government does not give its sanction.

The absence of England would be Germany's opportunity, says the writer, who declared it would be a mistake not to accept the chance to show German textile goods to the world. It is necessary to head off Chinese and Japanese competition in the United States.

SHOPLIFTER CAUGHT IN ACT, BUT ESCAPES

SAN FRANCISCO, Aug. 19.—A stylishly gown woman entered the store of Lippman Brothers, Twenty-third and Mission streets, this morning and asked to purchase some goods. While she was looking them over a clerk saw her conceal a bolt of silk valued at \$52.50 under her coat. Several employes surrounded her and accused her of the theft, whereupon she dropped the loot, ducked under the arm of the manager and made her escape. The proprietor ordered that she be not pursued, but later telephoned the police.

JUNEAU, Alaska, Aug. 19.—The list of known dead and missing passengers who were on the Pacific Coast Steamship Company's iron steamship State of California when she struck a rock and sank in Gambier bay Sunday morning today stands unchanged. With ten bodies recovered and fifteen passengers known to be missing and given up for dead. The total death toll will reach 32. Whether more passengers than the fifteen whose names appear in the list of missing are among those whose bodies were taken down with the wreck is uncertain, as Purser L. J. Coughlin saved no records and is not sure how many were aboard the ship when it went to its doom.

Examination of the hospital list, where the survivors were taken, added two names to the list of passengers saved. They are George O'Dell, a Kansan, on route to the Suchanna gold field, and Alvin Drake of Des Moines, Iowa. The eleven survivors treated in the hospital are:

H. R. ANDREWS, suffering from shock and exposure.
ALVIN DRAKE, Des Moines, Iowa, severely bruised.
MRS. BELLE DRAKE, Des Moines, Iowa, bruised.
LAWRENCE FERRIS, New York, knee badly lacerated.
HANS JOHANSSON, third engineer, head cut.
PILOT MCGILLIVRAY, rib broken and body bruised.
GEORGE O'DELL, Kansas, head cut.
MRS. PETER OLSON, Tacoma, shock and exposure; not expected to live.
PETER OLSON, Tacoma, shock and exposure.
C. D. SHAW, Australia, head cut.
MRS. J. TRACY, stewardess, shock and exposure.

The State of California is a total loss, with everything aboard, including cargo, mail and express and personal effects of the passengers. Those who survived escaped with only the clothes they had on when the steamer struck. Many were in their night robes, while others were partly dressed.

Kiss Wife and Self In Jealous Frenzy

WHEELING, W. Va., Aug. 19.—Francis because he had heard unfounded reports reflecting on his wife's character, John Marshall today fired five bullets into her body as they sat at the breakfast table in their home in Martin's Ferry. Four of their six children also were seated at the table.

POLICE "SPITE WORK" WILL STOP, SAYS KUHLE

SAN FRANCISCO, Aug. 19.—Police Commissioner Max Kuhle announced today that he was going to break up the practice of police officers arresting citizens for spite work. He said that arguing with the patrolmen was sufficient to cause a man to be taken into custody on a trumped up charge.

The case of Myrtle Carl, a public accountant, arrested for refusing to move on was cited as an instance and it was stated that in these cases officers usually succeed in having the persons they arrest found guilty and dismissed with a reprimand so that they will not be fined and make a fuss.

MEXICO BECOMES MARKET FACTOR

Situation Furnishes the Chief Speculative Material for Early Downward Rush.

NEW YORK, Aug. 19.—Crop news, the principal market factor recently, was relegated to second place today and the Mexican situation furnished the chief speculative material. Early reports of the Mexican situation were followed by more reasonable advice and the market grew quieter after the first downward rush. No substantial gains were made, however, and the market closed with a slight decline.

Stocks of rubber and other commodities were also affected. The market for rubber was particularly active, with prices showing a slight decline. The market for other commodities was also active, with prices showing a slight decline.

Has Voice of Rare Beauty
Will Make Concert Tours

MISS LULU MAYSMITH, OAKLAND SOCIETY GIRL WHO WILL GO ON CONCERT STAGE

After several years of study in the east, Miss Lulu Maysmith, well known Oakland society girl, is soon to make her debut as a concert singer. Miss Maysmith announced on her recent return from a summer visit to the Russian river, that she had definitely decided to give up society to follow music as a life work and will start on a tour, during which she will be heard in concert selections. Miss Maysmith is well known in local musical circles as the possessor of a soprano voice of rare beauty. The Oakland girl has studied under Harold Jarvis and Professor Haley, in the East, and recently completed her course under Professor Homer Henley. She also studied under Mrs. M. E. Blanchard in San Francisco.

HISTORIC CUPOLA IS RAZED BY LIGHTNING

GETTYSBURG, Pa., Aug. 19.—The cupola of the old seminary, from which General Lee directed the movements of the Confederate forces during the battle of Gettysburg, was struck by lightning in a terrific storm and was burned, destroying one of the principal landmarks of the historic field.

Bark Deserted by Crew; Unseaworthy

WASHINGTON, Aug. 19.—Deserted by her crew as unseaworthy, the bark Saint Catherine lies at anchor in an isolated harbor on the Alaskan coast. The revenue cutter service today was apprised of this by radiograms from Captain W. L. Reynolds, commander of the Bering sea fleet. The fact that high wages could be obtained in the salmon fisheries at Ugaship, Alaska, is believed to have lured away the crew of the bark. Her owner, unable to sign another crew, appealed to the revenue cutter service for aid. A cutter with a commissioner and United States marshal has been ordered to investigate.

GOLF IS NOW THE PRINCIPAL TOPIC

Legislators Drop the Cares of State for Short Time.

WASHINGTON, Aug. 19.—Golf has forced the more weighty problems of statehood temporarily out of the minds of Senators. Rumors that leading and boastful golfers of the house were crowding of their prowess on the Chevy Chase and Columbia links, led golfing Senators today to perfect their Senate Golf Association, which will soon be ready for all comers. Senator Salisbury has been the active figure in bringing together the golfing enthusiasts, who include many of the leading men of both parties. Here is the roster of officers and directors of the new association, as given out by Senator Salisbury today:

Honorary President—Vice-President

Marshall

Honorary Secretary—Senator Gallinger

President—Senator O'Gorman

Vice-President—Senator Cummins

Treasurer—Senator Lippitt

Secretary—Senator Hitchcock

Executive Committee—Senators Pittman, Blanton, Townsend, Walsh and Randall

Manager—Senator Salisbury

Captain of team—Senator Hollis

Former Senator Jonathan Borne of Oregon, an ex-officio member of the Senate Association, will aid in the management of the team. He is an expert player and defeated President Taft on several occasions.

TAX PAYMENTS SHOW PROSPERITY OF STATE

SACRAMENTO, Aug. 19.—When the first installment of 1913 to 1914 taxes due to the state from the corporations became delinquent at 6 o'clock last night approximately \$6,250,000, or more than one-half of the amount of taxes due for the entire year, had been received by State Treasurer Roberts.

The amount will be increased by payments from various parts of the state, mailed before 6 o'clock last night.

Treasurer Roberts says that this is a phenomenal collection for this time of the year and that it shows a good financial condition.

HOBBO CHIEF IS INVENTOR; KENT BACKS 'OCTOPLANE'

WASHINGTON, Aug. 19.—Representative Kent is again in the limelight. He has permitted Carl Browne, out time "grand marshal" of Coxy's army of tramps on its march to Washington in experiments. The former hobbo chief is making a new kind of aeroplane. The machine is an "octoplane," but it hasn't flown yet. Kent is reported to be financially backing Browne.

POLICE SEARCH FOR MINING MAN

John Mitchell Drops From Sight; Foul Play Is Feared.

SAN FRANCISCO, Aug. 19.—After worrying herself almost into a state of nervous prostration for four days, Mrs. J. Mitchell, wife of John Mitchell, a mining man, notified the police this morning of her husband's disappearance on the morning of August 15, a short time after the couple arrived here from Butte, Montana. The couple arrived August 12, and registered at the Hotel Marley, 87 Third street. August 14 was spent in sightseeing and the next morning Mitchell left on his journey. He was expected back but he did not return and she waited days for him only to have her fears increase as the time went on.

This morning Captain of Detectives Mooney detailed two men to make an investigation. Mitchell is 30 years old, weighs 157 pounds, and is of medium build.

COMMISSION PLAN IS BADLY DEFEATED

PHILADELPHIA, Aug. 19.—Advocates of the commission form of government were defeated yesterday in the first elections held in this state under a law passed by the legislature at its last session. The boroughs of Sunbury, Shamokin and Mount Carmel all voted against the innovation. The fact that there would be an increase in the cost of liquor licenses under proposed charters is declared by those favoring the change to have been responsible for the result.

ATTACKED AND ROBBED WHILE ON WAY TO FERRY

SAN FRANCISCO, Aug. 19.—Harold Ward, of Fresno, California, was attacked by three thugs on Pacific street, at a late hour last night and robbed of \$65. Ward was on his way to the ferry at the time and was set upon and beaten. He reported the matter to the Harbor police.
